

West Hartford Public School District

Agenda Item: Charter Oak International Academy Building Project Update
Draft Schematic Design Presentation

Meeting Date: January 7, 2014

From: Tom Moore, Assistant Superintendent for Administration

Through: Karen L. List, Superintendent

Background:

The architecture firm of Perkins Eastman will present a draft schematic design and site layout for the new Charter Oak International Academy. Since the last Board update, Perkins Eastman has refined the design concepts presented at the November 6 meeting into a single building and site layout. The draft design and site layout was presented to faculty and the community on Monday night, December 16th.

The goal of tonight's meeting is to review the design direction so that the architect can develop a detailed schematic drawing for cost estimation purposes in the next 4 weeks. In February, the architect will present the complete schematic design for approval, together with a detailed cost estimate, which shall be provided by the Construction Manager.

Tom Moore, Chip Ward, Bob Palmer, Hugh Schweitzer, and Perkins Eastman will be available to answer questions.

Agenda Item:
VI. B. 1.
