HOME AND SCHOOL COMMUNICATION AND SUPPORT

Teacher E-Mail Addresses: All teachers at this school have been issued e-mail addresses.

Online Homework Information: A portion of the school's website is devoted to homework pages.

The following narrative about how this school promotes and supports parental involvement was submitted by the school.

Hall High School is committed to supporting family involvement in the education of our students. Through New Parent Welcome Breakfast & Panel Presentation, grade-level parent meetings, Curriculum Night, Parent Conferences, PTO meetings and other school communications, parents are provided with specific strategies that may assist them in supporting the academic success of their child. Ongoing, meaningful, and effective communication is critical to maintaining our successful partnership with families. Every parent and student is given access to the Parent Portal of PowerSchool, a web-based program. Here they can access current grades, assignments and attendance. This has shown to be an effective tool in communicating the academic standing of every student in every class. Parent conferences are an additional means of communication with parents. Parents are provided the option of either an evening or morning session. This flexible scheduling has increased the number of parents attending. The Hall High School website contains current information about Hall High School. Teacher contact information, daily announcements, sport schedules, and special events are updated regularly. Monthly newsletters are delivered electronically and available on-line via the school's website. In addition, we use BlackBoard Connect, a phone messaging computer system, to call, email, and/or text message parents to remind them of and invite them to upcoming events at Hall. Hall has an active PTO (Parent Teacher Organization). The PTO provides families with a directory of students' names and addresses. They hold monthly meetings and host guest speakers on a quarterly basis. The guest speakers present information vital to students and their families.

EFFORTS TO REDUCE RACIAL, ETHNIC AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

The Hall High School community has a goal to reduce racial, ethnic, and economic isolation. Hall students are given the opportunity and are encouraged to participate in the Greater Hartford Academy of Performing Arts and the Greater Hartford Academy of Math and Science. Students are encouraged to participate in inter-scholastic athletics and have the opportunity to get involved in inter-district programs such as Common Ground and Camp Anytown. These programs promote understanding and acceptance of differences and develop leadership skills with diverse groups of students. There are a wide variety of clubs that bring diverse groups of students together, such as the Gay/Straight Alliance, Multicultural Club, Human Rights Coalition, Action Club, Jewish Student Union, Anime Club, Asian Cultural Club and Ethnic Dance Club. They also participate in regional academic events including the Mock Trial, JETS, Latin Day, Math Team, and the Chemistry Club. Hall High School continues to promote a respectful, safe, and welcoming environment as well as achieving equity in educational opportunities. Faculty workshops offered throughout the year focus on a better understanding of our diverse student populations and identifying teaching strategies that enable all students to achieve. For students, we offer curricular and co-curricular activities designed to build community among our diverse populations. Our Student/Faculty Committee creates a culture of respect and promotes an atmosphere of participation, responsibility and ownership in the community. The Link Crew program helps new students make a successful transition to high school. Hall has an Advisory Program where students meet with a teacher twice a month to foster student/school connections. Hall provides opportunities such as "A Night Around the World" and the Multicultural Club assemblies for diverse students to showcase their individual talents. Hall has established a Safe School Climate Committee which ensures all students are treated fairly through awareness, education and prevention.

SCHOOL IMPROVEMENT PLANS AND ACTIVITIES

The following narratives was submitted by this school.

One of the major goals of Hall High School is to improve the academic performance of all students. Through our Curriculum Review Plan, every department and subject area reviews their current plan and makes revisions to the curriculum on a five-year cycle. Administrators, regular & special education teachers are members of the Curriculum and Professional Development Committee. Additionally, our School Development Plan outlines our school goals, objectives, and indicators of success. Hall has completed the NEASC Self-Study Process in preparation for our fall 2013 visit. This Self-Study Report identifies Hall's strengths and areas in need of improvement. During the 2012-2013 school-year, Hall High School provided co-taught special education classes for students in core subject areas and in multiple grades. In addition to co-taught classes, Hall offers resource classes and self-contained programs to meet the needs of our students. Hall uses IEP (Individualized Education Plan) Direct, a web-based program, to create and manage the plans for our special education students. Copies of student IEP's are available on-line for regular education teachers to view. The student's case manager is in regular contact with his/her teachers in order to support academic progress. The Freshman Academy, an academic program for at-risk students, continued with its success during the 2012-2013 school-year. This program provides support for students by utilizing a team of four teachers who work directly with the students identified for this program. Hall also has a full-time reading teacher who provides support to students reading below grade level. Our reading teacher also acts as a consultant in the regular education classes by supporting teachers and presenting reading strategies to students. Working in collaborative teams and working with the Common Core of State Standards continues to be a focus for professional development during the 2012-2013 school-year. High expectations, raising the achievement level for all students, increasing parental involvement, and building community will remain major objectives for Hall High School.

SUPPLEMENTAL SCHOOL INFORMATION

The space below was optionally used by this school to describe aspects of the school not presented elsewhere in the profile.

Hall is one of two public high schools in West Hartford. Hall has a population of approximately 1472 students and takes great pride in its racial, religious and cultural diversity. Our African American, Asian, and Hispanic population make up over one-third of our student body. Our students speak approximately 38 different languages and represent many religions. Academically our students continue to be accepted into the most prestigious colleges and universities in the country. Hall has over 30 sports offerings and more than 60 clubs and activities in which students participate. Our faculty is made up of lifelong-learners. They are actively involved in professional development and attend both state and national conferences to ensure they are engaging in best practices in the classroom. Members of the faculty are regular recipients of professional awards and recognition at the local, state and national levels. In addition, Hall teachers present at conferences in their respective academic areas both regionally and nationally.
